Experience

Equipment manager/Head Mechanic

Miramont country club, Bryan TX-----2018 – sept 2025

Managing 2 mechanics and all 5 departments pieces of equipment.

Responsibilities covered all equipment across the property. one shop for the whole property. This shop was equipped with 2 technicians. Shop covered course, street

maintenance equipment, cube house, bank and owner house. as well as property wide vehicles. I was responsible for all maintenance and repairs as well as Preventative maintenance. Budget tracking and parts ordering for each independent department. Maintain the highest QOC on the courses. Maintain perfect mowers for every day play like it was Tournament Day. Also rebuilding motors. Troubleshooting hydraulics and electrical. Welding and fabrication were key roles in the shop. Main work was on small diesel engines like Kubota, yanmars. Was also responsible for tracking and keeping a good budget. Plus, Manny more things.

Equipment manager/Head Mechanic

The club at Cordillera, Edwards, CO----- 2015 - 2018

My job is to oversee all mechanics, equipment, and fleet trucks. We are running two types of equipment here. Toro and John Deere. We fix repair and maintain all equipment at each shop. Keep accurate records and maintain on time schedules. Ordering parts for the summer and winter. Troubleshooting and rebuilding engines. Welding and soldering.

Equipment manager/Head Mechanic

Spring Valley Lake CC, Victorville, CA----- 2011 - 2015

My job was to do preventative maintenance fixes, repair and maintain all fleet equipment and golf carts. Order parts and maintain an accurate budget for equipment maintenance. Keep accurate maintenance, hazardous waste, and gas logs. Assist with equipment training, maintain a clean and safe work environment for me and every other employee. Assistant superintendent with any or all equipment scheduling.

Mechanic

Van Buren Golf Center, Riverside, CA----- 2010 - 2011

My job was to do preventative maintenance fixes, repair and maintain all fleet equipment and golf carts. Order parts, keep accurate maintenance logs

Mechanic
